

Licensing Fees Reduced

The Landscape Architect Board has reduced fees collected from licensees to establish an optimum balance between revenues and expenditures for the licensing program. This action has been taken to ensure collection of sufficient revenues to administer the program with a modest fund balance as a “safety net”. Emphasis has been placed on reduction of the initial examination fee to promote licensure for applicants –commonly newly graduated students--entering the profession in the State of Washington. Questions about the fee structure can be directed to the Board staff at (360) 664-1497.
